Subject: Comments on Proposed Amendment of Regulations Implementing CEQA (GHG

Emissions)

The City of Roseville offers the following comment on the proposed amendments to the State CEQA Guidelines addressing analysis and mitigation of greenhouse gas emissions.

Section 15183 Projects Consistent with a Community Plan, General Plan, or Zoning

The City of Roseville requires preparation of specific plans for new growth areas, however specific plans are not listed as one of the types of plans that this section applies to. The City requests that this be made specific by inserting "specific plan" at the locations identified in the attached pdf document.

Appendix D, Environmental Checklist Form

With regard to checklist question X.V.I. Transportation and Traffic, question a), it appears the word "not" was inadvertently omitted from the phrase "...including but <u>not</u> limited to intersections, streets, highways and freeways". The City requests that the word "not" be inserted as shown in the attached pdf document.

Should you have any questions concerning the City's comments please don't hesitate to contact me.
